# How to enable JavaScript in Internet Explorer

This guide will step you through the process of enabling JavaScript in Internet Explorer.

## 1. Select the "Tools" menu

In Internet Explorer 6, 7 or 8, "Tools" is a menu at the top of the screen:

In Internet Explorer 9 and higher, "Tools" is found by clicking the gear icon on the right-hand side of the browser window:

- ¢ ×	<i>e</i> Blank Page	×	
			Tools (Alt+X)
WhatIsMy	rowser.com		

#### 2. Select "Internet Options"

In Internet Explorer 6, 7 or 8, "Internet Options" is the bottom menu item:

File Edit View Favorites	Tools Help		
Favorites 🏾 🏾 🏀 New Tab	Delete Browsing History InPrivate Browsing Reopen Last Browsing Session	Ctrl+Shift+Del Ctrl+Shift+P	
	InPrivate Filtering InPrivate Filtering Settings	Ctrl+Shift+F	
	Pop-up Blocker SmartScreen Filter Manage Add-ons	*	
	Compatibility View Compatibility View Settings		
	Subscribe to this Feed Feed Discovery <b>Windows Update</b>	×.	
	Developer Tools	F12	
	Windows Messenger Diagnose Connection Problems Hiddler		

In Internet Explorer 9 and higher, "Internet Options" is the second-last option:

P + C @ Blank Page	×		ល៍ជ
		Print	
		File	
		Zoom (100%)	
		Safety	
		View downloads	Ctrl+
		Manage add-ons	
		F12 developer tools	
		Go to pinned sites	
		Internet options	
		About Internet Explorer	

# 3. Select the "Security" tab

The window which has just appeared will have a tab labled "Security"; please click it:

## 4. Click the "Custom Level..." button

Enabling or disabling JavaScript in Internet Explorer involves setting a custom security level; so click the button to modify it.

	Security	Privacy	Content	Connections	Programs	Advanced
Select a	a zone to v	iew or cha	ange securi	ty settings.		
(			-	/ (	0

## 5. Scroll down and change the Active Scripting setting

Scroll down to the section titled "Scripting". There is a sub-section called "Active scripting". Click the option "Enable" to enable Javascript. Press the "OK" button to save this change.

#### 6.Confirm the change

Because you are changing an important setting, Internet Explorer will prompt you to confirm that you really want to do this. Press the "Yes" button to confirm this change.

## 7. Close "Internet Options"

You are now returned to the original "Internet Options" window. Press the "OK" button to close it and return to your normal web browsing.
